DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 7, 8-11, 13-16, 17-23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Davis et al (6,345,102) in view of Szilagyi et al (6,396,197).

Consider claims 7, 10-11, 13-16, 17-19, 22-23. Davis teaches a piezoelectric speaker comprising a frame having an opening therein (frame 26); a piezoelectric film located on one side of the frame and covering the opening (piezoelectric elements 28); a laminating film (fixing material 32; col. 3, ln. 16-26) attached to the one side of the frame; and a detachable fastener integrally formed on the laminating film for fastening the piezoelectric speaker to a surface of a sun visor (10). Davis does not teach the laminating film covering the piezoelectric film. However, it would have been obvious to one of ordinary skill in the art at the time the invention was made to entirely cover the back of the frame (26) with the laminating film (fixing material 32; col. 3, ln. 16-26) in order to securely hold the speaker to the sun visor (10).

Davis does not teach a detachable fastener fastening the piezoelectric speaker to a surface of a helmet.

Art Unit: 2643

Szilagyi teaches a detachable fastener fastening the piezoelectric speaker to a surface of a helmet (abstract; col. 1, ln. 15-27, ln. 66 to col. 2, ln. 19, ln. 39-49; col. 5, ln. 28-48).

Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to utilize the teachings of Szilagyi into the teachings of Davis in order to provide a piezoelectric speaker that is easily secured to an existing structure.

Consider claim 8. Szilagyi further teaches the frame supports the piezoelectric film speaker in a curved state (fig. 1, frame 14 having base portion 20 and top portion 22).

Consider claim 9. Szilagyi further teaches the curvature of the frame has a radius of curvature in a range of 210mm to 360mm (fig. 8-9 show piezoelectric speakers being used in bicycle helmet which inherently has a radius of curvature in a range of 210mm to 360mm).

Consider claim 20. Szilagyi further teaches the frame supports the piezoelectric film speaker in a curved state (fig. 1, frame 14 having base portion 20 and top portion 22).

Consider claim 21. Szilagyi further teaches the limitations of this claim in (fig. 1, frame 14 having base portion 20, top portion 22 and the piezoelectric element 26 or 28 held by the pair of frame pieces 20 and 22).

Response to Arguments

3. Applicant's arguments with respect to claims 7-11, 13-23 are have been considered but are moot in view of the new ground(s) of rejection.

Art Unit: 2643

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
